Introduction

Hi there! My name is Celsius Đỗ Nguyễn, a passionate web developer and tech enthusiast...

My Interests

I have a diverse range of interests including programming, web design, and artificial intelligence. I enjoy creating interactive web applications that provide valuable user experiences.

Projects

Currently, I am working on several projects that focus on machine learning and data visualization. I love the challenge of solving complex problems through code.

Get Involved

I am always open to collaborating on new projects or learning opportunities. If you're interested in working together, don't hesitate to reach out!
